The regulation grid of patents put in an appearance during "court week," this time limited to chums and a wheat fan, but the old-time "boss swapper" seems to have got lost in the shuffle, somehow, and we miss him every court, the business in that line nowadays being confined exclusively to home talent who want to get rid of an old plug or two and let the other fellow kill them.

Cured Hay Fever and Summer Cold.

A. J. Nuebaum, Batesville, Indiana, writes: "Last year I suffered for three months with a summer cold so distressing that it interfered with my business. I had many of the symptoms of hay fever, and a doctor's prescription did not reach my case, and I took several medicines which seemed to only aggravate my case. Fortunately I insisted upon having Foley's Honey and Tar in the yellow package, and it quickly cured me. My wife has since used Foley's Honey and Tar with the same success." All dealers.

It is better to ride a hobby than to sit by the roadside and grumble.—Ex.

James Crosby of Greenbrier came in and handed in a renewal dollar before starting home yesterday. He was a member of the grand jury.

Ruddle G. Hartle, our next prosecuting attorney, has been in town several days. After a siege of almost twelve months his health is gradually improving, but his friends advise him that it would be imprudent to attempt an active campaign of the county. He will try to see most of the voters, however, in his quiet, modest manner, and present his claims for their support.

Henry Young of Eagletoe went to Sturdivant this morning with ten cases of hop tea or beer, I don't know which, but it does make the boys wear that silly smile and imagine himself a prize fighter. Young says he will start a tiger at that place. That makes only three in about 5 miles square in the south part of Bollinger county. Wake up, you Bollinger county people, old sister Stoddard doesn't allow tigers to run at large. We have the right kind of men in office, don't you see.—Brownwood Cor. in Advance Guard.

WHAT WOMEN WILL WEAR THIS WINTER.
Discussing suitable costumes for business women in THE NEW IDEA WOMAN'S MAGAZINE for October, the writer of the article remarks: "The reaction to very dark colors which distinguishes this season from its several predecessors will have the full approval of all those women who have to consider the practical before all else. It may be said, however, that in spite of the profusion of lace and furbelows lavished on summer styles, there always is an undercurrent of simplicity sought by the conservative element, to which in great measure the best business women belong. Not only deep navy blues, ruby shades of red, and the old-fashioned bottle greens which are being revived, but black in combination with myrtle green and autumn colors produce effects which are in keeping with the somber color scheme. Among the manifold suitings there are many unobtrusive stripes which are very attractive, and have almost superseded the checked materials in popularity. The plaids are also very dark, the newest ones showing a combination of brown and bronze greens. One characteristic of the novelty plaids materials is a satin stripe, generally in black, which recurs regularly in the pattern. The separate plaid skirt, particularly in the shadow plaid, is a feature of the season. It is invariably accompanied by a waist of the predominating shade in the plaid."

The Food Value of a Soda Cracker

You have heard that some foods furnish fat, other foods make muscle, and still others are tissue building and heat forming.

You know that most foods have one or more of these elements, but do you know that no food contains them all in such properly balanced proportions as a good soda cracker?

The United States Government report shows that soda crackers contain less water, are richer in the muscle and fat elements, and have a much higher per cent of the tissue building and heat forming properties than any article of food made from flour.

That is why **Uneda Biscuit** should form an important part of every meal. They represent the superlative of the soda cracker, all their goodness and nourishment being brought from the oven to you in a package that is proof against air, moisture and dust—the price being too small to mention.
